

SMART SOLUTIONS FOR THE LABELING INDUSTRY

SMALL LABEL DISPENSER

model **DP02**

Small Electronic Dispenser Series is the ideal solution for your label handling operations like the food packaging sector.

Versatile, simple to use, reliable, and tough, our small electronic dispensers are available in two different models and will make it easy for you to apply labels in your manufacturing process.

All the dispensers have a top to write on the label before detachment and are equipped with an external auto-switching 100/240VAC - 2.5A at 24V power supply and an electronic circuit controls the functions with a protection 3.15A fuse.

SPECIFICATIONS	
Features	DP02
Maximum label width	5.90" (150mm)
Maximum roll diameter	7.87" (200mm)
Minimum core holder	0.78" (20mm)
Maximum peel length	7.08" (180mm)

* Software for labels length up to 600mm (23.62 ") available on request

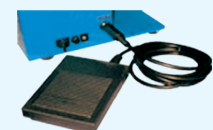

Control panel

Electronic Features

- Photocells for the label's detection
- Tachymeter for the control of the label's length to detach
